

Greater Minnesota Gas, Inc. (GMG) offers incentives for above-code homes when you include a 95%+ AFUE natural gas furnace and an HRV/ERV with 60%+ SRE in your new home. A GMG rep can provide the blower door test at no cost. Or, the rater, builder, or homeowner can be reimbursed for the blower door test, up to \$300 each. Additional rebates are available for measures that improve energy efficiency, outlined below:

Conversation Measures	Rebate Level (per meter)
Get Started with these base qualifying measures: <ul style="list-style-type: none"> Gas Heating System, at least 95% AFUE Heat Recovery Ventilation, at least 50% SRE Minimum Air Sealing (below 3 ACH50-basic code compliance) 	\$200
Rebate amount for tighter homes: (Choose one tier that your results fall into)	
2—2.49 ACH50	\$100
1.5—1.99 ACH50	\$400
1—1.49 ACH50	\$700
<1 ACH50	\$1,000
Get a more efficient gas heating system:	
96% AFUE	\$50
97% AFUE	\$100
*Get a more efficient gas water heater:	
.67 UEF	\$100
.90+ UEF	\$300
Efficient Windows (U value < .27)	\$200
WIFI Enabled Thermostat	\$100
Natural Gas Fireplace with Electronic Ignition	\$100
Energy Star Certified Natural Gas Clothes Washer (must have natural gas water heater to qualify)	\$25
Energy Star Certified Natural Gas Clothes Dryer	\$25
Energy Star Certified Natural Gas Dishwasher (must have natural gas water heater to qualify)	\$25
Walls insulated to R21+ (climate zone 6) or R22+ (climate zone 7)	\$50

NEW HOMES REBATE PROGRAM INFORMATION

To ensure you receive eligible rebates in a timely manner, please provide documentation validating the efficiency of the furnace and heat recovery ventilation systems installed in the home.

Builders will receive a blower door test report from their energy tester when they pass the code compliance leakage test. This test can be sent directly to your building code official for compliance purposes.

If your home does not pass the code compliance test, you will receive information on how to improve the home's air tightness and will receive a standard furnace rebate from GMG.

Neither Greater Minnesota Gas, Inc. or Frontier Energy is responsible for the builder's failure to comply with energy code. Please check with your local building code official on their requirements.

Please contact GMG's rebate specialist with questions or to sign up:

- Phone (888) 931-3411
- Email: scarpenter@greatermngas.com

*If you are presently working with an energy rater to perform your blower door tests, please contact Greater Minnesota Gas to see if they are qualified to do these test for the offered rebates.
